

Isabel technical system requirements

Ref. Isa/Tec1007-E

The latest version of these technical requirements is always available at Isabel's Internet site: www.isabel.be.

Installation of Isabel Business Suite on a PC

A PC must meet the following minimum requirements to be able to install Isabel Business Suite 5.0:

- Pentium-processor;
- 16 MB RAM memory;
- 110 MB available on the hard disk. Proprietary bank modules and Internet Explorer 5.5 are not included in this;
- Windows 95, 98, Millennium, XP, NT Workstation 4.0, 2000 Professional or Vista (32 bit version). For Windows NT, Service Pack 3 minimum is required. If you use Service Pack 6, you must have at least version 6a to be able to work with Isabel Business Suite 5.0 (English version available on the installation CD);
- for Windows 95 or 98, the (*win*.cab*) installation files are required during installation (if TCP/IP is not configured);
- Internet Explorer 5.5 (128-bit encryption) or higher (available on the installation CD);
- free USB port for the Card reader;
- possibility for serial port support. Please contact Isabel or check the latest version of the technical requirements on the Isabel website (www.isabel.be);
- a modem with a speed of 14400 bps, connected to the telephone network;
- a printer.

ISDN users need:

- an ISDN subscription and connection;
- ISDN-hardware, whether this is an internal card, or an ISDN Terminal Adapter;
- the ISDN hardware must be configurable in the Windows Dial-Up Networking module, via MS Accelerator Pack or via proprietary hardware drivers.

Installation of Isabel eInvoice only on a PC

A PC must meet the following minimum requirements to be able to install Isabel eInvoice only:

- Pentium-processor;
- 16 MB RAM memory;
- 110 MB available on the hard disk. Internet Explorer 5.5 is not included in this;
- Windows 95, 98, Millennium, XP, NT Workstation 4.0, 2000 Professional or Vista (32 bit version). For Windows NT, Service Pack 3 minimum is required. If you use Service Pack 6, you must have at least version 6a to be able to work with Isabel Business Suite 5.0 (English version available on the installation CD);
- for Windows 95 or 98, the (*win*.cab*) installation files are required during installation (if TCP/IP is not configured);
- Internet Explorer 5.5 (128-bit encryption) or higher (available on the installation CD);
- free USB port for the Card reader;
- possibility for serial port support. Please contact Isabel or check the latest version of the technical requirements on the Isabel website (www.isabel.be);
- a modem with a speed of 14400 bps, connected to the telephone network;
- a printer.

To install Isabel eInvoice only, you have to use a PC where no Isabel software has been installed previously.

If you want to install on a PC equipped with Isabel 4.0 or 4.1, follow these instructions:

- Upgrade your old version to Isabel Business Suite 5.0. The full version will be installed automatically.
- Then install Isabel eInvoice only. This procedure will eliminate the other components of the full suite.

ISDN users need:

- an ISDN subscription and connection;
- ISDN-hardware, whether this is an internal card, or an ISDN Terminal Adapter;
- the ISDN hardware must be configurable in the Windows Dial-Up Networking module, via MS Accelerator Pack or via proprietary hardware drivers.

Installation of Isabel WebSign 5.0 only on a PC

A PC must meet the following minimum requirements to be able to install Isabel WebSign only:

- Pentium-processor;
- 16 MB RAM memory;
- 20 MB available on the hard disk. Internet Explorer is not included in this;
- Windows 95, 98, Millennium, XP, NT Workstation 4.0, 2000 Professional or Vista (32 bit version). For Windows NT, Service Pack 6a minimum is required (available on the installation CD);
- for Windows 95 or 98, the (*win*.cab*) installation files are required during installation (if TCP/IP is not configured);
- Internet Explorer 5.5 (128-bit encryption) or higher (available on the installation CD);
- free USB port for the Card reader;
- possibility for serial port support. Please contact Isabel or check the latest version of the technical requirements on the Isabel website (www.isabel.be);
- Internet connection;
- a printer.
