

MULTIBANKING

SIMPLIFIED

SAVE TIME AND MONEY
BY MANAGING YOUR
ACCOUNTS CENTRALLY.
**BETTER INTERNET BANKING
THANKS TO ISABEL 6.**

Isabel 6, one solution that offers many advantages.

Do you work with several banks? Isabel 6 gives you one single screen with one single, secure point of access to give you an overview of all your financial transactions with your various banks, whether you have 2 or 25 banks. Isabel 6 also makes it easier for your partners and your colleagues to work together internally. Isabel 6 is the only payment solution in Belgium specially developed for small and large companies, professionals, organisations and governments.

Quick, easy and secure payments with Isabel 6:

- View all your professional banking on a single, well-organised screen.
- Enter payments quickly and upload payment files easily.
- Process account information and CODA files.
- Sign transactions, even remotely.
- Distribute tasks and responsibilities within your team.

Do you work with multiple banks? Then you will encounter the following difficulties

1. lack of a clear global view
2. each bank has his own interface
3. different login procedures for each bank

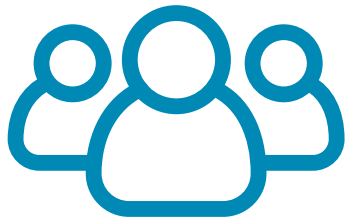

Isabel 6 is a multi-bank solution that offers instant access to all your accounts with all your banks.

Time is money. The better you manage both, the more your business will improve.

WANT TO SAVE TIME WITH MULTIBANKING? ADD VALUE WITH ISABEL 6.

You rely on the expertise of various banks, because it benefits your business or organisation. However, the complex administration makes it difficult for you to maximise these benefits. Isabel 6 maximises Multibanking.

ISABEL 6 INCREASES YOUR EFFICIENCY.

1 Consolidate your financial data.

Do you have several business accounts? Do you work with two or more banks? Use Isabel 6 to integrate and process all your information in one clear environment.

ISABEL 6 INCREASES YOUR EFFICIENCY.

2 Optimise your overview.

Isabel 6 has numerous features. Use them according to your personal preferences to manage all your accounts on one screen.

Search all your accounts.

Isabel 6 allows you to search all your bank data based on date, information type, amount, payee ... It also lets you personalise and save your searches.

Create reports.

Gather specific data from all your accounts in a report you can print or share as a PDF file. Plan and automatically create daily account overviews.

Filter your overviews.

What information do you want to see: all current accounts with all your banks or just the savings accounts? Set up your own filters and use them as the default view.

Go to your banking applications.

Isabel 6 has a button with a direct link to your bank applications.

Personalise your accounts.

The overview of available accounts shows the bank's account holder name. You can set up a simple name (alias) to make your work easier.

Stay up-to-date

Intraday gives you regular updates on transactions for certain banks on that particular day.

3 Simplify your tasks.

Your accounting or ERP software is seamlessly integrated into Isabel 6. This interaction is of great value to your organisation.

- Maximise the potential of your accounting or ERP software.
- Save time by automating your financial processes.
- Work faster and reduce errors with payment files.
- Use CODA for the optimal processing of your bank statements.

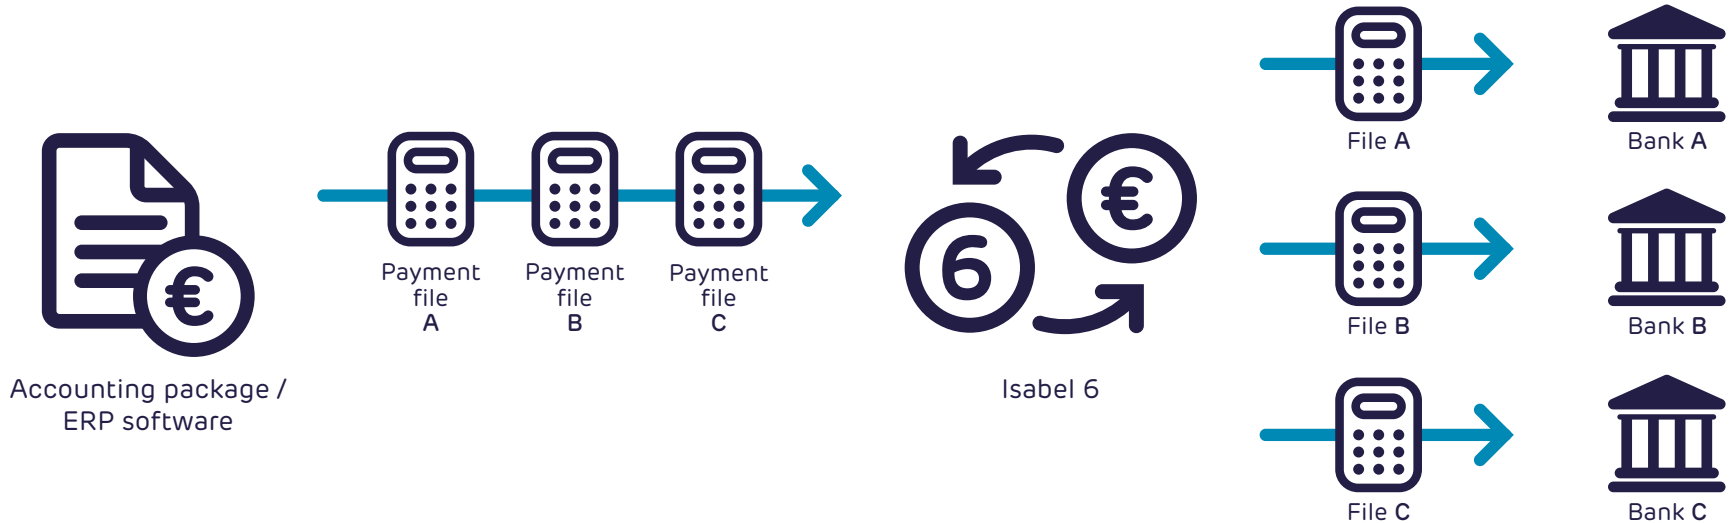

“At a glance, I can see whether our transactions were successful for all our accounts and branches.”

Christine Plasmans,
Financial Director of Mazda Logistics Europe

ISABEL 6 INCREASES YOUR EFFICIENCY.

4 Streamline your transactions.

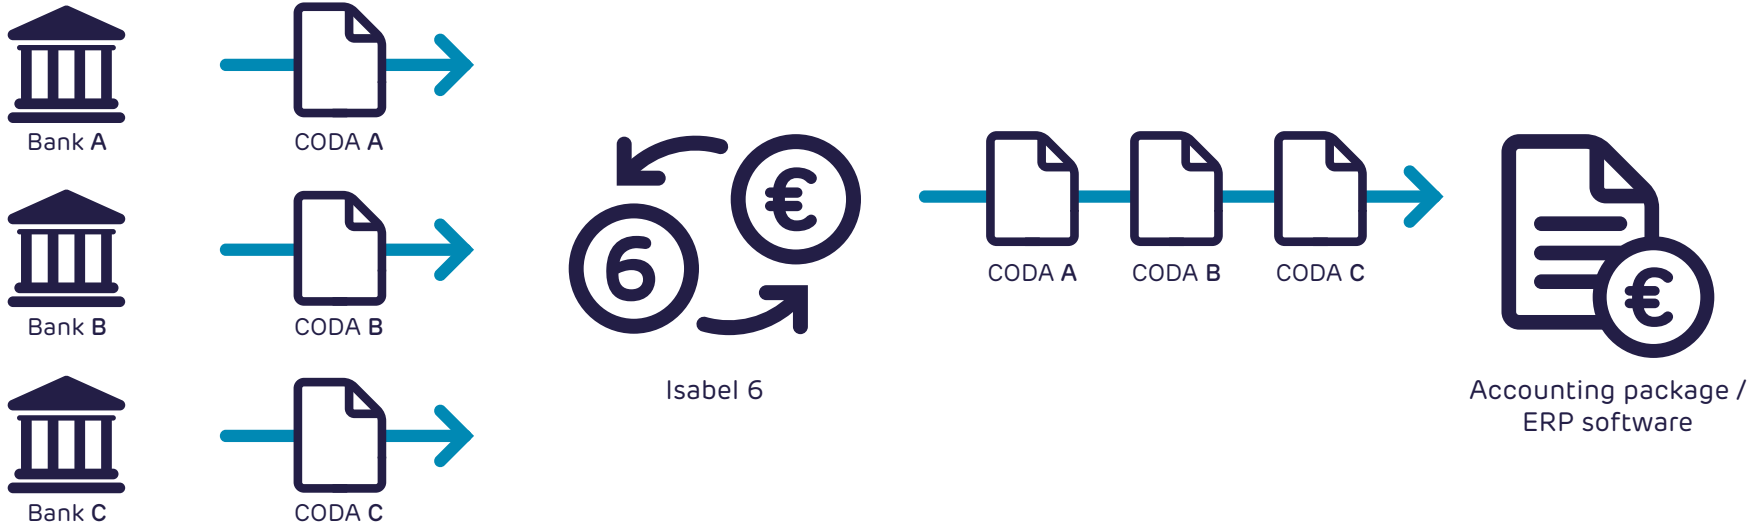

Enter your transaction data in your accounting once and send payment files - without any retyping - to Isabel 6 for further processing at the various banks. Isabel 6 will notify the signatories if necessary.

5 Integrate your reporting.

Isabel 6 optimises the communication to and from your banks. Collect the reporting files (CODA, MT94x, CAMT) of all your accounts in your subscription: here you can download them and process them in your accounting every day.

ISABEL 6 INCREASES YOUR EFFICIENCY.

6 Save time and money.

Investing in efficiency pays off. Automated processes make your payments quicker and reduce errors during transaction entry and processing. Thanks to Isabel 6, there is only one process for all your banks.

More control

A better overview also means better control. The syncing between your accounting and Isabel 6 ensures that all information is accurately transferred both internally and to the banks. This also makes it much harder to manipulate data.

The right account

When making payments, you want to be sure that there are sufficient funds in the account from which the payments are made. Isabel 6 shows all balances with your different banks.

“I gain precious working hours every week.”
